

## **Biographical Sketch**

### **Michelle J. White**

Michelle J. White is research professor of economics and professor emeritus at the University of California, San Diego and research associate at NBER.

She received her Ph.D. in economics from Princeton University in 1973 and has held faculty positions at the University of Pennsylvania, New York University, and the University of Michigan. She has also been a visiting professor at Yale, Wisconsin, Chicago, University College London, Tilburg University in the Netherlands, and Cheung Kong Graduate School of Business in Beijing. She was a visiting scholar at Harvard Law School, the Hebrew University, Copenhagen Business School, and the Universities of Bonn, Tel Aviv, Uppsala, and Munich. She taught in the American Economics Association's master's degree program in Beijing in 1986 and in the Ph.D. program at the New Economics School in Moscow in 1996. In 1990 she was a Fulbright Scholar at the University of Warsaw.

She was President of the American Law and Economics Association in 2008-09, a member of the Advisory Panel of the Law and Social Sciences Program of the U.S. National Science Foundation in 1987-88, the American Economic Association's representative on the Board of Directors of the Social Science Research Council in 1994-2000, vice-president of the Midwest Economics Association in 1996-97 and a member of the Executive Board of the Western Economics Association International in 2016-2019. She was also a member of the Executive and Supervisory Committee of CERGE-EI, a Ph.D.-granting economics program in Prague.

She is a past editorial board member of the *Journal of Economic Perspectives*, the *American Law and Economics Review*, the *Journal of Urban Economics*, *Land Economics*, and the *Journal of Real Estate Finance and Economics*. Her research has focused on the economic effects of personal bankruptcy system in the U.S. on consumer and small business behavior. Other recent research projects include the interaction between bankruptcy and mortgage default, the effect of Proposition 13 in California on household mobility, and the effects of local sales taxes on employment in retailing versus manufacturing.
