4. Informal Mailinglist

I would like to keep you posted about news for the class via e-mail.

Please write down your e-mail address on an index card for that purpose.

Of course, I will also post all information and notes outside my office for those of you who do not want to share their e-mail addresses.

5. International Finance at work

I want to bring events and changes in the international financial environment to the classroom. For this purpose, I plan to spend around ten minutes of every second section on recent news from international financial markets.

I would like *you* to suggest topics, either in class or by e-mail. I will then group them so that they fit best into the course of the lecture.

I will announce the exact procedure in the second week of classes.
