

**Outline for RES Easter School on "Behavioural Economics", 22-25 March 2015, Brasenose College Oxford, Colin Camerer and Vincent Crawford**

**Sunday 22 March**

300-400: Overview of behavioural economics

I. Desiderata for participation (VC)

II. Overview of behavioural decision theory (CC)

III. Overview of behavioural game theory (VC)

430-600: Present bias and time-inconsistency I: Theory and evidence (VC + CC)

700-900: dinner

**Monday 23 March**

915-1045: Reference-dependence and loss aversion I: Theory and evidence (CC)

1115-1245: Strategic thinking I: Theory and evidence (VC)

100-230: lunch

230-400: Measuring cognition in economic decisions: How and why? I (CC)

430-600: Reference-dependence and loss aversion II: Applications (VC + CC)

700-900: dinner

**Tuesday 24 March**

915-1045: Strategic thinking II: Applications (CC)

1115-1245: Public policy forum (Bank and Treasury participants)

100-230: lunch

230-400: Present bias and time-inconsistency II: Applications (VC + CC)

430-600: Measuring cognition in economic decisions: How and why? II (CC + VC)

700-900: dinner

**Wednesday 25 March**

915-1045: Structural and nonparametric econometrics (VC)

1115-1245: Participants' 15-minute presentations (90 minutes; expand as needed by shortening breaks)

100-200: lunch

200-330: Strategic thinking III: Applications (VC)

400-500: Wrap-up: Neuroeconomics and machine learning (CC), Questions (VC + CC)
